What's New With Pivotal CRM 6.6

See what Pivotal CRM has to offer

Pivotal CRM is a full-featured CRM platform that integrates all the characteristics of successful CRM: flexibility, reliability, smart reporting, and mobile access. Suited to organizations of all sizes, Pivotal CRM's solution provides useful insights, adapts processes to business, and helps improve company productivity with a flexible and customizable solution.

Pivotal 6.6 provides a sleek and simple interface empowering users to perform tasks efficiently, making it easier to find information and multi-task. Explore the possibilities with a richer, more advanced Pivotal and delight your user community.

NEW PIVOTAL CLIENT

Pivotal 6.6 provides a new modern aesthetic to provide a seamless user experience regardless of the client deployment used.

- Maximize screen space and reduce the amount of time scrolling with the collapsible task pad
- Customize workspace with theming and styling options to match your organizations branding requirements
- Enable greater reach and access when on the road with a consistent user experience across all platforms and devices
- Move from a laptop to large monitor seamlessly with the new form scaling feature that gives the clearest view of all forms, searches, and dashboards by adapting the screen
- Improves scalability and simplifies the overall architecture and deployment process

Latest Enhancements

Office 365 Application

Add-in - Stay within Outlook to view customer information, link documents, and add vital customer data to Pivotal.

Cloud Ready

- Easy deployment and configurations on Azure and AWS with 64-bit PBS (Pivotal Business Server) to support better scalability.

Universal Installer - Simple, fast and easy installation of all Pivotal Server components in one single installer.

Enterprise Insight Search

- Improved search experience with new powerful fast search engine with type forward capability where results appear instantly as the word begins to be typed.

Web Admin

- Simple system management with the new web administration tool to configure multi-tenants of Pivotal Systems, which will considerably cut down the time required to setup multiple Pivotal environments.

UX Enhancements - Mobile usability and dashboard improvements with multiple series graph, history tracking, new theming & styling options and much more giving further personalization options for end users.
